VeteranPath MVP Checklist

Core Flows

[ ] Intro flow: Ask for branch, rank, MOS, years of service, goal

[ ] Resume path: Upload FITREP or paste text

[ ] Resume builder: Choose a role or goal (e.g., Cyber, PM, Intel)

[ ] Show translated bullets based on your pre-built examples

[ ] Export bullets as .txt

[ ] Optional: Let user copy bullets into a text area and select from templates

Resume Templates (Your Goldmine)

[ ] Upload 2-3 of your best real-world resumes

[ ] Let users select one that fits their background (Cyber, Intel, Logistics, etc.)

[ ] View/download resume templates

[ ] Copy and paste bullets into user editor

[ ] Create a screen that allows users to pick a template, swap in bullets, and export

Use Your Resume Language As Logic

[ ] Add a file (e.g., resume_templates.py) with predefined bullets based on example roles

[ ] Write logic that replaces placeholders dynamically

Basic UI Cleanup

[ ] Add a logo or title at top

[ ] Use a sidebar for navigation

[ ] Add small explanations under each option

Launch-Ready Polish

[ ] README file with purpose, screenshot, and usage instructions

[ ] One-click share link using cleaned-up Streamlit domain

[ ] Privacy message or warning if uploading sensitive evals

Once MVP Is Live, Next Steps

[ ] Plug in GPT to translate FITREPs dynamically

[ ] Add 'Paste Job Description' -> tailor resume bullets

[ ] Add interview prep and job suggestions
